**Amendments to the Claims**

This listing of claims will replace all prior versions and listings of claims in the application:

**Listing of Claims:**

**Claim 1 (original):** A liquid crystal display, comprising:

a backlight module having a light source, a light guide plate, a reflector, and a quarter-wave plate, the light source being disposed adjacent to one side of the light guide plate, and the reflector, the quarter-wave plate and the light guide plate being stacked together from bottom to top in that order; and

a liquid crystal panel having a reflective polarizing element, the liquid crystal panel is located on the backlight module, and the reflective polarizing element faces a top surface of the light guide plate.

**Claim 2 (original):** The liquid crystal display of claim 1, wherein a plurality of V-shaped grooves is defined on the top surface of the light guide plate.

**Claim 3 (original):** The liquid crystal display of claim 1, wherein the quarter-wave plate is attached to a bottom surface of the light guide plate.

**Claim 4 (original):** The liquid crystal display of claim 3, further comprising a diffuser disposed between the liquid crystal panel and the light guide plate.

**Claim 5 (original):** The liquid crystal display of claim 4, further comprising a brightness enhancing film disposed between the diffuser and the liquid crystal panel.

Appl. No. 10/788,577

Reply to Office Action of August 9, 2005

**Claim 6 (original):** The liquid crystal display of claim 5, further comprising a plurality of printing-dots being defined on the bottom surface.

**Claims 7-12 (canceled)**

**Claim 13 (original):** A liquid crystal display comprising:  
a light guide plate;  
a light source located by one side of the light guide plate;  
a quarter-wave plate located under said light guide plate;  
a reflector located under said quarter-wave plate; and  
a reflective polarizing element located above the light guide plate.
